

REMARKS/ARGUMENTS

The rejections presented in the Office Action dated August 7, 2006 (hereinafter Office Action) have been considered. Claims 51-88 remain pending in the application. Reconsideration of the pending claims and allowance of the application in view of the present response is respectfully requested.

Claims 51, 52, 53-61, 80 and 84-88 have been corrected to overcome the Examiner's objections because of informalities. The amendments made to the Claims 51, 52, 53-61, 80 and 84-88 are not made in response to or any objections or rejections to the claims based on prior art. Thus, the Applicant has not intended to narrow, nor has the Applicant narrowed, the scope of any of the claims resulting from amendments made to overcome objections based on informalities.

Claim 51 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form. Claims 66 and 71 stand rejected under 35 U.S.C. §112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter. Claim 71 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. §112, 2nd paragraph, set forth in this Office Action. Applicant appreciates indication of the allowance of Claims 51 and 71.

Applicants have rewritten Claim 51 in independent form and have cancelled Claim 50 without prejudice or disclaimer. Allowance of Claim 51 is therefore respectfully solicited. Applicants traverse the rejection to Claims 66 and 71, but in order to facilitate prosecution of the application, have amended Claim 71 to set forth that a "dialog is established using multimedia caller line identification data in the dialog," and the reference to "multimedia caller line identification" within CS bearer information has been removed. Allowance of Claim 71 is therefore respectfully solicited. Applicants have also amended Claim 66 to address the rejection, and respectfully submit that Claim 66 is also in condition for allowance.

Claims 50, 66-70, 72, 79 and 81 stand rejected under 35 U.S.C. §103(a) as being unpatentable over WO 03/003767 to Soininen et al. (hereinafter "*Soininen*"). Claims 52-61, 64 and 73-76 stand rejected under 35 U.S.C. §103(a) as being unpatentable over *Soininen* in view of "*SDP: Session Description Protocol*" by Handley et al. (hereinafter "*Handley*"). Claims 62, 63, 65, 77 and 78 stand rejected under 35 U.S.C. §103(a) as being unpatentable over *Soininen* in view of U.S. Publication No. 2004/0120505 by Kotzin et al. (hereinafter "*Kotzin*"). Claim 80 stands rejected under 35 U.S.C. §103(a) as being unpatentable over *Soininen* in view of U.S. Publication No. 2003/0026245 by *Ejzak et al.* (hereinafter "*Ejzak*"). Claims 82 and 83 stand rejected under 35 U.S.C. §103(a) as being unpatentable over *Soininen* in view of *Ejzak* and further in view of *Kotzin*. Claims 84-88 stand rejected under 35 U.S.C. §103(a) as being unpatentable over *Soininen* in view of *Ejzak* and further in view of *Handley*.

Applicants respectfully traverse the rejections. The Applicants respectfully submit that the claims as originally presented are not rendered obvious in view of the above combination of references. However, in order to facilitate prosecution of the application and in a *bona fide* attempt to advance the application to allowance, independent Claims 72, 80, and 81 have been amended to at least set forth that establishing a dialog between entities involves including multimedia caller line identification data in the dialog. Applicants respectfully submit, that in light of the indications of allowability regarding independent Claims 51 and 71, that the amendments to independent Claims 72, 80, and 81 also place these claims in condition for allowance.

Claims 52, 53, and 62-70 have been amended to depend directly from Claim 51, and as a result dependent Claims 52-70 now depend from independent Claim 51; dependent Claims 73-79 depend from independent Claim 72; and dependent Claims 82-88 depend from independent Claim 81. These dependent claims include all of the limitations of the base claim and any intervening claims, and recite additional features which further distinguish these claims from respective combination of references. Therefore, Applicants respectfully submit that dependent Claims 52-70, 73-79, 82-88 are also in condition for allowance.

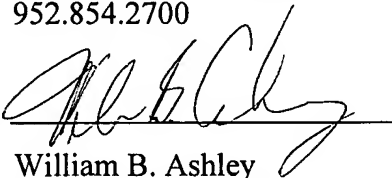

Authorization is given to charge Deposit Account No. 50-3581 (NOKM.079PA) any necessary fees for this filing. If the Examiner believes it necessary or helpful, the undersigned attorney of record invites the Examiner to contact him at to discuss any issues related to this case.
